

Nursery News

Friday 12th June 2026

In Nursery this week...

Everyone enjoyed reading the story "The Great Explorer". We shared ideas on what to pack in the explorer's backpack, ready for an exciting adventure! Children explored maps and globes to identify land and sea areas and hot and cold places. Outdoors, children followed route-ways and described key features of their immediate environment.

In our PSHE session, children have been thinking about how they have changed and have considered what they would like to be when they grow up.

Everyone has been working really hard to learn letter sounds in our daily Read, Write, Inc phonics and name writing sessions.

School starters

***If your child is starting in Reception class in September, please return completed forms. These can be given to Nursery staff or the school office.**

***Children will have "Meet the Teacher" sessions on Thursday 25th June and Thursday 9th July. This is an opportunity to spend time in their new Reception class with their teacher, teaching assistants and new friends.**

Home Activity...

Please help your child to notice, describe and draw what they see on their way to Nursery. Discuss their route to and from school, talking about buildings and routeways.

Stars of the Week...
