

# Nursery News

Friday 13<sup>th</sup> March 2026

Squirrel class have enjoyed lots of outdoor learning as we have been exploring signs of Spring. Our story book focus, "Jasper's Beanstalk" has created lots of interest after we found a special bean in a box! Children enjoyed re-enacting the story and sequenced the days of the week with puppets, props and story sack resources. Everyone has been busy planting beans, seeds, and vegetables in our garden centre role play area and bug garden. We look forward to observing growth and measuring our own beanstalks! We also used beans to sort and count into numbered pots, developing our counting skills and number recognition.

In Nursery next week...

We will continue our growing theme with the story, "Jack and the Beanstalk" where we will be developing construction themes and ideas to create beanstalks and castles.

## Stars of the Week

**Lila L & Bella G**

## Home Activity

Children will be bringing home a card, painting and a portrait of mum for Mother's Day on Sunday! As a home activity we have asked children to do something nice and helpful on Mother's Day. We look forward to hearing about your special day on Monday! We hope you all have an extra special Mother's Day weekend!

Many thanks for your ongoing support.
