

# Nursery News

Friday 22nd May 2026

As we approach the end of another lovely half term of learning, we would like to say a huge well done to all of our Nursery children in Squirrel class. Everyone has worked so hard and learning has been so much fun! We have enjoyed lots of outdoor learning opportunities exploring the world around us. Please remember to check out our learning on our school Facebook page.

This week in Nursery we have been really interested in weather changes! We particularly enjoyed parachute games and kite making on a very windy Wednesday! Outdoors, we also continued our learning observations in the bug garden- planting and observing changes.

In our Phonics sessions, we have explored initial sounds and everyone enjoyed writing letters in their own names to create caterpillar names. As we continued our "Talk for Writing" text, "The Three Little Pigs", we explored shapes and sizes when den building and in our music session we used a range of musical instruments to create the "Three Pigs Rap". Our class caterpillar transformation has been of great interest and we enjoyed creating our own class butterfly dance, exploring patterns and decorating butterfly cakes for snack.

## Home Activity

When we return to Nursery, we will be learning about different places around the world, for example, a jungle, the ocean, a cave, a forest. Please talk about what it would like to visit these places.

Our school starters continue to have a Read, Write, Inc daily letter sounds session in Nursery. Please continue to support your child's recognition of these sounds and practice with name writing.

Have an enjoyable half term break. We return on Tuesday 2<sup>nd</sup> June.
