

## Penguin Class Newsletter

### Messages

We have had another busy and enjoyable week in Penguin class, with the children working hard across all subjects. It has been lovely to see their enthusiasm and creativity shine through their learning.

### English

This week, we continued our work on *The Pied Piper of Hamelin*. The children planned and wrote their own versions of the story, changing the main character, the town, the magical instrument and even the type of infestation. They showed great imagination and really enjoyed putting their own twist on the tale.

### Maths

In Maths, we have completed our learning on measures. The children have been converting between metres, centimetres and millimetres to compare lengths, as well as exploring capacity and volume using litres and millilitres.

### Science

We have started our new Science topic on plants. This week, we focused on what plants need to thrive and survive, linking this to the different parts of a plant and their functions.

### Art

In Art, the children have been drawing and painting their favourite place onto fabric, inspired by the work of Faith Ringgold. They explored using pattern and colour to add detail to their designs and practised careful, controlled brush strokes when working on textiles.

### News

#### Academic Excellence

Well done to the following children who have been our 'Workers of the Week':

- Holly and Lacie
- Jamie-Lee and Harry

#### PE

Children can attend school in full Whiston Willis PE kits on **Monday and Wednesday.**

To see all our latest learning and for school updates, please follow our school Facebook page

**Thank you for your continued support**
