DREUX • EURE-ET-LOIR

Marion (the woman sitting in front of us) explains us the pictures. In each room, we choose a picture or two and she explains us how the picture has been created... asks questions to us ... she helps us to understand this exposure.

Some pictures....

Marion asks us to imagine our own « photography » with a lot of pictures . We had scissors, glue.....

We liked this visit. We like the portrait from Eric Poitevin « the woman with the green sweater ». This portrait like La Joconde seem to follow you with her eyes everywhere in the room.
