

Penguin Class Newsletter

Messages

I hope you all had a lovely Christmas break and a chance to enjoy some rest and time together. It has been great welcoming the children back into school this week and seeing how well they have settled back into routines. The class have returned with a positive attitude and are already engaging well with their learning. We are looking forward to an exciting term ahead, filled with new topics, challenges, and opportunities to grow.

English

This week, we finished our book 'The Seed of Doubt' by creating our own motivational leaflets. The children have been thinking about the importance of staying positive and having dreams and goals for the future. Next, we will begin reading 'The Pied Piper of Hamelin' and will be learning all about fables, traditional tales, and myths.

Maths

We have continued our work on measurement, converting between metres and centimetres, and centimetres and millimetres. We have then applied these skills to problem-solving, using column addition, subtraction, multiplication, and division.

Science

In Science, we have continued learning about forces and have explored Newton meters, investigating how much force is needed to push and pull different objects.

PE

In PE, we have been practising our dribbling skills using both our hands and feet with a range of balls. The children explored which balls were more suitable for dribbling with hands and which worked better with feet. We have also begun our yoga unit and have learnt four new poses.

News

Academic Excellence

Well done to the following children who have been our 'Workers of the Week' this week:

- Heidi and Rory
- Ellis and Ethan

PE

Penguins can attend school in full Whiston Willis PE kits on **Monday** and **Wednesday**.

To see all our latest learning and for school updates, please follow @MissArmstrongWW and @WhistonWillis1 on X (Twitter).

Thank you for your continued support

Miss Armstrong
